

STEP-BY-STEP PROCEDURE WITH SCREENSHOTS

Step 1: Install XAMPP

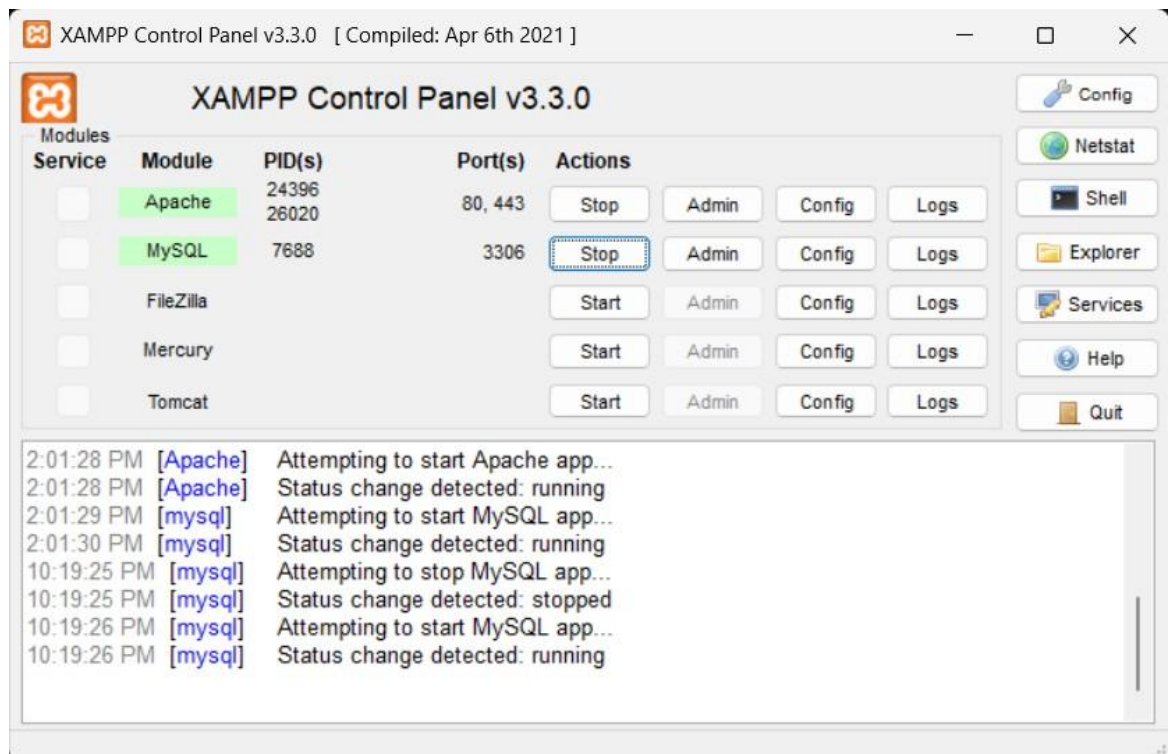

The screenshot shows the 'Download' page of the XAMPP website. The navigation bar at the top includes 'Apache Friends', 'Download', 'Hosting', 'Community', and 'About'. The main heading is 'Download'. Below it, a paragraph states: 'XAMPP is an easy to install Apache distribution containing MariaDB, PHP, and Perl. Just download and start the installer. It's that easy. Installers created using [InstallBuilder](#).' The main content area features the Windows logo and the text 'XAMPP for Windows 8.0.30, 8.1.25 & 8.2.12'. Below this is a table with three columns: 'Version', 'Checksum', and 'Size'. The table lists three versions: 8.0.30 / PHP 8.0.30 (144 Mb), 8.1.25 / PHP 8.1.25 (148 Mb), and 8.2.12 / PHP 8.2.12 (149 Mb). Each row includes links for 'What's Included?', 'md5', 'sha1', and a 'Download (64 bit)' button. At the bottom, there are links for 'Requirements' and 'More Downloads »', and a note that Windows XP or 2003 are not supported, with a link to download compatible versions [here](#).

Version	Checksum	Size
8.0.30 / PHP 8.0.30 What's Included?	md5 sha1	Download (64 bit) 144 Mb
8.1.25 / PHP 8.1.25 What's Included?	md5 sha1	Download (64 bit) 148 Mb
8.2.12 / PHP 8.2.12 What's Included?	md5 sha1	Download (64 bit) 149 Mb

[Requirements](#) [More Downloads »](#)

Windows XP or 2003 are not supported. You can download a compatible version of XAMPP for these platforms [here](#).

Apache/2.4.58 (Win64) OpenSSL/3.1.3 PHP/8.2.12 Server at localhost Port 80

Screenshot 6: WordPress Language Setup

1. Enter Database info:

Below you should enter your database connection details. If you are not sure about these, contact your host.

Database Name
The name of the database you want to use with WordPress.

Username
Your database username.

Password [Show](#)
Your database password.

Database Host
You should be able to get this info from your web host, if localhost does not work.

Table Prefix
If you want to run multiple WordPress installations in a single database, change this.

[Submit](#)

Step 7: Add Product Categories

Product categories

Your store does not appear to be using a secure connection. We highly recommend serving your entire website over an HTTPS connection to help keep customer data secure. [Learn more here.](#)

Search categories

Product categories for your store can be managed here. To change the order of categories on the front-end you can drag and drop to sort them. To see more categories listed click the "screen options" link at the top-right of this page.

Add new category

Name

The name is how it appears on your site.

Slug

The "slug" is the URL-friendly version of the name. It is usually all lowercase and contains only letters, numbers, and hyphens.

Parent category

None

Assign a parent term to create a hierarchy. The term Jazz, for example, would be the parent of Bebop and Big Band.

Description

The description is not prominent by default; however, some themes may show it.

Ruched Button Down Puff Sleeve Top in Yellow is a bright and playful piece that adds charm to any outfit. Featuring a collared neckline, button-down front, and gathered detailing at the waist, this puff sleeve top blends classic tailoring with a fun, feminine vibe. The soft yellow stripes make it a standout for both casual and chic outings.

Made from 100% cotton, this puff sleeve top is breathable, lightweight, and easy to wear all day. The **ruched** fit keeps it flattering while the puff sleeves bring in a touch of retro-inspired flair. This puff sleeve top is your versatile pick for days when you want comfort
